"2025 Gun of The Year"

Henry Big Boy .357Magnum
Lever Action Model # H012GM

Henry Big Boy Steel Side Gate Blued/Walnut Lever Action Rifle - 357 Magnum - 20in - Traditional in appearance, pistol-caliber Big Boys are drilled and tapped for optic mounts for rapid target acquisition with red dots and longer reach with magnified scopes. Long barrels produce a substantial velocity increase with Magnum pistol cartridges, approaching the conventional rifle levels while offering greater tube magazine capacity and shorter lever throws thanks to shorter cases. Smooth, dependable actions and inherent accuracy of Henry barrels add up to enjoyable handling and effective performance on game and paper targets alike.
